EDUCATION

Instituto Educacional "Minerva"   High School | *2017 - 2020*

Instituto Universitario Politécnico "Santiago Mariño"   System engineering | *In Progress*

PROJECTS

Portfolio UX ANA RANGEL
https://anarangel.github.io/

Front end Developer

I developed the Card and Navbar components with Astro and Css, I made them following best practices resulting in a cutting edge design as proposed in Figma's design.

I implemented a responsive feature in the "About Me" view, this feature in the project improved the user experience making it pleasant on mobile devices.

JS Conf Chile Page
https://jsconf.cl

Front end developer

I developed the Navbar, Footer and the "Why?" page using best practices, using mobile first design respecting the design presented in Figma.

Volunteer Experience

Front end developer

It is a community of developers and designers in which we collaborate on fun and challenging projects to improve hard skills with code review and improve soft skills by communicating as a team

Core Skills

Astro, Javascript, React.js, Spanish-Fluent, English-B2, Teamwork, Adaptability,Commitment, Communication, Troubleshooting
